

Dear FCC,

I am appalled that the Air 1 radio station that I listen to could be removed from the air. I recommend the station to others and love the faith based message that encourages so many. I tune to 91.9 FM throughout the day in my car and home. Air 1 is an asset to our community. I am able to listen to the same station as I travel to other cities, that truly is a blessing. Non-commercial radio is a refuge from the advertising onslaught we face everyday. I would be very upset to lose Air 1. It simply cannot be replaced. The public needs this message of hope and peace. Please listen to my plea and prioritize FM translators over LPFM to keep Air 1 on the air.

Sincerely,

Kent Buchanan
